THE EVILS OF TIPPING.

One of the Grentest of Small Nulsances the Country Has.

New York Evening Sun.

America is a growing country in every

respect. Cities grow, literature grows, art is spronting, but most luxuriant of all are our nuisances. Our great nuisances are being grappled with more or ess successfully, but our small ones

less successfully, but our small ones flourish unduly.

Take that of "tipping," for instance. There is no greater small nuisance in the whole history of nuisances than this, and if it is not taken care of immediately and energetically it must result in our becoming a nation of bankrupts.

Just look the tipping evil squarely in the face for a mement. It is an individual attempt to pay wages to the whole community.

You enter a restaurant, call for your lunch, and at its conclusion pay the waiter from 10 to 15 per cent of the amount of your check for doing the work properly or improperly, as the case may be.

You hire a cab and ride a few miles, and as a reward, possibly for keeping his horse alive, or to pay him for the wear and tear upon his feelings induced by the language he has been compelled to use in the course of events, you tip the driver, you give what the Frenchman calls a "for-drink" in addition to to his fare, to which he has himself, in all probability, added some 20 or 30 per cent for the sake of his family.

What a ridiculous custom it is—worse than ridiculous, it is criminal because it subjects the poor man who cannot afford to throw his money away to bad service at dinner, to vile abuse from his cab driver. You hire a cab and ride a few miles,

Carry the system to its logical con-

lusion: How you would ridicule a member of Congress who dared propose that the President of the United States be handed

President of the United States be handed a check for \$10,000 at the end of his term as a reward for doing what he has been already paid for doing.

What a prepostereus notion it would be to require members of a church congregation to tip the organist, choir, sexton and rector himself at the conclusion of divine service, because they had done their duty well.

Do you ever tip the salesman at the colar and cuff store because he has not insisted upon your wearing linen four sizes too large and a season or two too late?

Do you ever add anything to the total of your plumber's bill because he has served you well?

dealer \$6 a ton for coal when the market is at \$5 50.

Do not shoulder the responsibility of the restaurant and hotel keeper yourself, and if you have any money to spare save it, devote it to charity or give it to your wife.

Have you ever been so far out of your mind mind as to send a bonus to your tailor?

Probably not; but there would be quite as much reason in your doing one and

Probably not; but there would be quite as much reason in your doing one and all of these things as there is there is in giving your cab driver his "for-drink" or in bribing the waiter in the restaurant not to drop the butter in your lap and pour your coffee down your neck.

If you do not wish to incur financial ruin, stop tipping.

If you tip waiters because you think they are underpaid, start a movement to secure better wages for them.

Ought to Satisfy Them.

Judge Woods, of Indianapolis, did not on his own opinion merely. He consulted Mr. Cleveland's new District Attorney, Mr. Claypool, who endorsed his views. Then he wrote to Justice Harlan, of the United States Supreme Court, who also agreed with him. Then he wrote again to Harlan, stating his doubts, wrote again to Harlan, stating his doubte, and in reply received a letter, of which his second instructions to the Grand Jury were the substance. This consensus of opinion abould certainly satisfy the most captious critics among the Indiana Democrats, who profess to know more than Harlan, Woods, and Claypool together on a question of law.

Iron Prospects.

Iron Prespects.

Concerning last week's iron market the Pittsburgh Diepatch of yesterday speaks as follows;
Iron was ashade firmer in consequence of a slight improvement in the demand, but there was no change in quotations. The prespect for a revival increases as the season advances. Large prospective building operations, it is expected, will more than absorb the stock of structural iron on hand. Pig aiready feels the stimulus of increasing business. Coal and coke were depressed owing to the and coke were depressed owing to the uncertainity of the outcome of the labor

REBUKED BY A MINISTER'S WIFE,

It was in a street car. Three ladies were engaged in conversation. Their subject was church matters and church Among the latter was the wife of the pastor of one of the leading Methodist congregations in the city. Methodist congregations in the city. The ladies said a good many things about her, some flattering and others decidedly otherwise; some things that were true and others that she would not have been willing to admit to be true. For nearly half an hour the gossipers plied their avocation, and, as the interest arose, so did the plich of their voices. All the time a lady sat opposite them in the car and quietly watched them. When one of the gossipe remarked that she had never seen the pastor's wife referred to and the others expressed a desire to see her, the silent watcher smiled. After a while the car reached the point where the lady wished to alight. She arose, but before starting toward the door laid her hand on the arm of one of the three who were engaged in conver-

the three who were engaged in conver-sation, and, with a self-possessed smile, said: said:

"Ladies, you have expressed a desire to see me. Here I am. I have too keen a sense of humor to leave the car without telling you I am the lady you have been talking about. Now, let me give you a little sensible advice. The next time you are in a street car don't talk so loudly, for some one might hear you who would not enjoy it as hugely as I have. Good afternoon."

The lady left the car and the faces of the gossipers were a picture of astonishment and discomfiture. The other passengers smiled.

MADE RICH IN THIRTY MINUTES. wo Brothers Strike a \$100,000 Mine by

S. R. Roger and his brother left their homes near Hastings, Mich., about four years ago and went to Breckenridge Col., where they worked in a stamp mill. They got possession of two claims, the "Iron Mask" and the "Kewanee," and and worked them during spare hours, putting considerable time and money into them. The claims had been worked previously for six years by an old miner, who failed to find paying ore. Roger recently put a man in the lower one and went to work himself. In less than half an hour, after digging about two feet, he struck gold and silver bearing carbonate of silver, said to be the most valuable and easily worked in that State. State.

The vein was followed to the surface, when it was found that all the previous year's work had been within eighteen inches of the vein. The Roger Brothers have been offered \$100,000 for the two mines, but want \$200,000. Within a week after this find 5,000 men were on the spot establishing claims, but the Rogers have secured many of the most desirable. The mine is on the east side of the mountain and the snow necessitates keeping it roofed over.

A few days ago, as Miss Mary Anderson was passing through one of the great dry goods stores, the salesmen recognized her and whispered to each other: "There goes Mary Anderson."

A little cash boy, hearing the remark too late to see her face, exclaimed: "Oh! why didn't you let me know in time? I haven't got money enough to see her play, but I might have looked at her."

The lady had not passed out of hear-ng. Turning back she stooped and "There, my lad," she said, "you cannot onty say that you have seen Mary Anderson, but that she has kissed you."

Does it Pay?

Three-fourths of our people are troubled with Dyspepsia or Liver Complaint in some form or other, which by nature of the disease has a depressing influence on the mind or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick headache, acidity of the stomach or any derangement of the stomach or liver (upon which the whole action of our system depends) are speedly and effectually overcome by the use of Green's August Flower. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits, (over a million and a half bottles soid last year.) So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the August Flower. Three doses will prove its worth. It is sold by all druggists and general dealers in all parts of the world. Daw Does It Pay?

Sometimes ideas are made flesh; they breathe upon us with warm breath; they couch us with soft, responsive hands; they look upon us with sad, sincere eyes, and speak to us in appealing tones.

"Another wonderful discovery has been made and that too, by a lady in this county. Disease fastened its clutches upon her, and for seven-years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking the first dose that she slept all night, and with one bottle has been miraculously cured. Her name is Mrs. Luther Luts."
